

Vice President, Engineering

TRANSLINK

Metro Vancouver, BC

It is a pivotal time for TransLink with a major capital expansion agenda combined with a reinvigorated focus on customer experience. With that momentum in mind, TransLink is seeking their next **Vice President, Engineering**.

As a member of TransLink's Executive team and reporting directly to the Chief Executive Officer, the Vice President, Engineering leads a centre of excellence for the provision of engineering, design, and project management to safely, successfully and expediently deliver a broad portfolio of capital projects and programs across the TransLink enterprise. This role interfaces regularly with the Board of Directors and leads with full authority of approved budget, the schedule, scope, procurement, and sale of property for capital projects, ensuring all necessary processes for monitoring, controlling, and measuring cost and progress are skillfully presided over. The VP manages major road network programs and administration of capital and operating funding agreements with municipalities; in addition to overseeing operations, maintenance, rehabilitation and capital improvements to TransLink owned structures (i.e. roads, bridges, and cycling facilities) for the entire region.

The sought after profile is a highly effective leader and strategist with a degree in engineering or a related field, and ideally a professional engineering designation. In addition, the candidate will have acquired 15+ years of progressively responsible leadership experience managing complex high value capital infrastructure projects, preferably in a large, complex, multi-stakeholder environment.

As the leader of the engineering function, this individual will have exceptional planning, communication, presentation, and interpersonal skills, to be able to build consensus and support amongst stakeholders with varying interests and perspectives. They will also possess a strong risk management background to be confident in overseeing the risk registries and ensuring proper risk mitigation processes are maintained. This VP will lead by example and be a champion of safe working practices and culture, taking a collaborative and inclusive approach to managing their team, and encouraging creativity, innovation and open communication.

The targeted salary range for this position is \$311,000 - \$330,000 annually, supplemented by a competitive total rewards package.

If this is the next step in your professional career, please visit our website and submit your application to **Shaun Carpenter** and **Maggie Ow** at www.pfmsearch.com.

Together, All the Way.

Together with our partners, stakeholders, and operating companies, TransLink plans and manages the region's transportation system. We're dedicated to creating and sustaining a transportation system that meets the needs of customers, residents, businesses, and goods movers in a way that protects the environment and supports the economic and social objectives of the region. Created in 1999, we deliver our services through contractors, and our operating companies and subsidiaries including Coast Mountain Bus Company, British Columbia Rapid Transit Company Ltd. (SkyTrain), Metro Vancouver Transit Police and West Coast Express Ltd.
